Traffic restrictions in place at Southern Beltway and S.R. 22 Interchange in Washington County

Restrictions needed to install signage as part of Southern Beltway Project.

The Pennsylvania Turnpike Commission wants to alert motorists that shoulder and intermittent lane restrictions could occur over the next month at the Southern Beltway (PA Turnpike 576) and State Route 22 interchange in Washington County.

Beginning May 31, lane restrictions could be in effect between 7 a.m. and 5 p.m., weather permitting. These traffic restrictions may be in effect until June 24, which will allow crews to safely install signage and pavement markings.

This traffic impact is part of the Southern Beltway Project. For more information, please visit:
